20 practice questions with answer key and explanations

These questions are original practice items, not actual exam items. LearnDigitalPH is independent and is not affiliated with or endorsed by Professional Regulation Commission (PRC) — Board for Professional Teachers. Exam facts checked as of October 2026: always confirm with the official agency.

Passing score: Weighted general average of at least 75%, with no rating below 50% in any part

---

GENERAL EDUCATION

1. Choose the word that correctly completes the sentence: "Neither the principal nor the teachers ____ joining the Brigada Eskwela clean-up this Saturday."

A. is
B. are
C. was
D. has been

GENERAL EDUCATION

2. Ano ang kasingkahulugan ng salitang "masigasig" sa pangungusap na "Masigasig na nag-aral si Liza para sa LET"?

A. masipag at matiyaga
B. maramdamin at sensitibo
C. mapagbiro at masayahin
D. mapag-isa at tahimik

GENERAL EDUCATION

3. Teacher Ana buys 3 boxes of chalk at P45 each and 2 whiteboard markers at P38 each. She pays with a P500 bill. How much change does she get?

A. P279
B. P299
C. P289
D. P311

GENERAL EDUCATION

4. The quiz scores of five learners are 82, 75, 90, 88, and 85. What is the mean score?

A. 84
B. 85
C. 86
D. 83

GENERAL EDUCATION

5. Which cell organelle is the main site of cellular respiration, where most of the cell's ATP is produced?

A. Ribosome
B. Golgi apparatus
C. Mitochondrion
D. Vacuole

GENERAL EDUCATION

6. The Philippine Trench was formed where one tectonic plate sinks beneath another. What type of plate boundary is this?

A. Divergent boundary
B. Transform boundary
C. Intraplate hotspot zone
D. Convergent boundary

GENERAL EDUCATION

7. Under the 1987 Philippine Constitution, how long is the term of office of a Senator?

A. Three years
B. Six years
C. Four years
D. Five years

GENERAL EDUCATION

8. Which work of Jose Rizal is dedicated to the three priests Gomez, Burgos, and Zamora (GOMBURZA)?

A. El Filibusterismo
B. Noli Me Tangere
C. Mi Ultimo Adios
D. Sa Aking mga Kababata

PROFESSIONAL EDUCATION

9. Republic Act No. 7836, which created the Licensure Examination for Teachers, is officially known as the:

A. Magna Carta for Public School Teachers
B. Philippine Teachers Professionalization Act of 1994
C. Professional Regulation Commission Modernization Act of 2000
D. Governance of Basic Education Act of 2001

PROFESSIONAL EDUCATION

10. A parent offers Teacher Ben an expensive gift and hints that her child's grade in Science should be raised. According to the Code of Ethics for Professional Teachers, what should Teacher Ben do?

A. Accept the gift, since it was given voluntarily
B. Accept the gift but report it to the school principal right afterward
C. Accept it only if it is worth less than P500
D. Politely refuse; gifts in exchange for concessions are not allowed

PROFESSIONAL EDUCATION

11. A Science test uses long passages with difficult English words, so many learners who understand the science concepts still get low scores. Which quality of the test is most compromised?

A. Reliability
B. Validity
C. Practicality
D. Objectivity

PROFESSIONAL EDUCATION

12. "Design an experiment to find out which kind of soil holds the most water." Under the revised Bloom's Taxonomy, this task targets which level?

A. Applying
B. Analyzing
C. Evaluating
D. Creating

PROFESSIONAL EDUCATION

13. A Grade 1 pupil insists that a tall, narrow glass holds more juice than a short, wide glass, even after seeing the same amount poured into each. According to Piaget, the child is in which stage?

A. Sensorimotor
B. Preoperational
C. Concrete operational
D. Formal operational

PROFESSIONAL EDUCATION

14. Teacher Mae gives step-by-step hints while a learner solves a word problem, then slowly reduces her help until the learner can solve similar problems alone. This practice is called:

A. Scaffolding
B. Shaping
C. Chaining
D. Rote drilling

PROFESSIONAL EDUCATION

15. A Grade 9 student keeps changing friend groups, fashion style, and dream careers, often asking "Who am I really?" Which of Erikson's psychosocial stages best fits?

A. Industry vs. inferiority
B. Intimacy vs. isolation
C. Identity vs. role confusion
D. Initiative vs. guilt

PROFESSIONAL EDUCATION

16. In a class of 40, 30 learners answered item #12 correctly. What is the difficulty index (p) of the item?

A. 0.25
B. 0.30
C. 0.75
D. 0.40

PROFESSIONAL EDUCATION

17. Learners learn to fall in line quietly, wait for their turn, and arrive on time, even though these are not written in any lesson plan. This is an example of the:

A. Recommended curriculum
B. Hidden curriculum
C. Written curriculum
D. Supported curriculum

PROFESSIONAL EDUCATION

18. Under RA 10533 (Enhanced Basic Education Act of 2013), basic education covers:

A. Six years of elementary and four years of high school, with no kindergarten
B. One year of kindergarten and six years of elementary education only
C. Kindergarten, six years of elementary, and two years of senior high school
D. At least one year of kindergarten, six of elementary, six of secondary

PROFESSIONAL EDUCATION

19. In Edgar Dale's Cone of Experience, which type of experience is at the base, being the most concrete?

A. Direct, purposeful experiences
B. Contrived and dramatized experiences
C. Exhibits
D. Verbal symbols

PROFESSIONAL EDUCATION

20. Under RA 4670 (Magna Carta for Public School Teachers), a teacher engaged in actual classroom instruction shall not be required to render more than how many hours of actual classroom teaching a day?

A. Four
B. Five
C. Six
D. Eight

# Answer key and explanations

### 1. B. are
With "neither...nor," the verb agrees with the subject nearer to it. "Teachers" is plural and closest to the blank, so "are" is correct. Flip the order ("...nor the principal") and the answer becomes "is."

### 2. A. masipag at matiyaga
Ang "masigasig" ay naglalarawan sa taong masipag, matiyaga, at determinado sa ginagawa. Pahiwatig ang pangungusap mismo: nag-aral si Liza para sa LET. Walang kinalaman dito ang maramdamin, mapagbiro, o mapag-isa.

### 3. C. P289
Chalk: 3 × P45 = P135. Markers: 2 × P38 = P76. Total: P135 + P76 = P211. Change: P500 − P211 = P289. Quick check: P211 + P289 = P500.

### 4. A. 84
Add the scores: 82 + 75 + 90 + 88 + 85 = 420. Divide by 5: 420 ÷ 5 = 84. Careful: 85 is the median (the middle score once sorted), not the mean.

### 5. C. Mitochondrion
The mitochondrion ("powerhouse of the cell") carries out aerobic respiration and produces most of the cell's ATP. Ribosomes make proteins; the Golgi packages them; vacuoles store materials.

### 6. D. Convergent boundary
A trench forms at a convergent boundary, where one plate is pushed down (subducted) under another. Here the Philippine Sea Plate sinks under the Philippine Mobile Belt. Divergent plates pull apart and transform plates slide past each other.

### 7. B. Six years
Article VI, Section 4 sets a six-year term for Senators, with no more than two consecutive terms. Members of the House serve three-year terms.

### 8. A. El Filibusterismo
Rizal dedicated El Filibusterismo (1891) to the memory of GOMBURZA, the three priests executed in 1872. Noli Me Tangere was dedicated "To My Country."

### 9. B. Philippine Teachers Professionalization Act of 1994
RA 7836 is the Philippine Teachers Professionalization Act of 1994. The Magna Carta is RA 4670, the PRC Modernization Act is RA 8981, and the Governance of Basic Education Act is RA 9155.

### 10. D. Politely refuse; gifts in exchange for concessions are not allowed
Article VIII, Section 4 of the Code bars teachers from accepting favors or gifts from learners, parents, or others in exchange for requested concessions. Reporting it later or setting a peso limit does not fix this. Grades must reflect real performance.

### 11. B. Validity
Validity asks whether a test measures what it is supposed to measure. This test ends up measuring English reading ability, not science understanding. Reliability is about consistent scores, which is not the problem described here.

### 12. D. Creating
Designing means planning and producing something new, which is Creating, the highest level of the revised Bloom's Taxonomy. Applying would only be following a procedure that already exists; here learners must build their own.

### 13. B. Preoperational

Lack of conservation (not understanding that quantity stays the same when shape changes) is typical of the preoperational stage (about ages 2–7). Conservation develops in the concrete operational stage.

### 14. A. Scaffolding

Scaffolding, linked to Vygotsky's Zone of Proximal Development, is temporary support that is slowly removed as the learner becomes independent. Shaping is different: it is a behaviorist method of rewarding closer and closer attempts.

### 15. C. Identity vs. role confusion

Identity vs. role confusion covers adolescence (about 12–18), when young people try out roles and values to form a stable sense of self. "Who am I?" is the classic sign. Intimacy vs. isolation comes later, in young adulthood.

### 16. C. 0.75

Difficulty index p = number who got it right ÷ total examinees = 30 ÷ 40 = 0.75. A higher p means an easier item. Don't mix up 0.25, which is the share of learners who got it wrong.

### 17. B. Hidden curriculum

The hidden curriculum is the unplanned, unwritten set of values and behaviors learners pick up from school life and routines. The written curriculum, by contrast, is what appears in official documents such as curriculum guides.

### 18. D. At least one year of kindergarten, six of elementary, six of secondary

RA 10533 defines basic education as at least one year of kindergarten, six years of elementary, and six years of secondary education (four years of junior high and two years of senior high).

### 19. A. Direct, purposeful experiences

Direct, purposeful experiences (hands-on, first-hand learning) are at the base of the cone and are the most concrete. Verbal symbols are at the top and are the most abstract.

### 20. C. Six

Section 13 of RA 4670 sets a limit of six hours of actual classroom teaching a day. When the service requires it, a teacher may teach up to eight hours, but must receive regular pay plus at least 25% of basic pay for the extra work.
